Our Aims & Principles

Education for Social Change

Education for Social Change is the overarching aim of Woodcraft Folk. It's all about building critical awareness of the world in young people and working together to develop the knowledge, values and skills needed to get involved in shaping Woodcraft Folk and wider society and to work together to bring about a more equal and caring world.

Co-operation

As a national co-operative youth movement, building a co-operative and sharing attitude to life is central to all of our educational work in Woodcraft Folk. Through group night activities exploring co-operation and camps where we live out our co-operative principles in practice.

International Friendship

The Woodcraft Folk motto is 'Span the World with Friendship' and we encourage international understanding and friendship through our educational work and international exchanges. Together we explore international issues, different cultures and learn from people in other parts of the world so that we can celebrate our diversity and understand the challenges and inequalities we all face.

The Rights of the Child

Every child in the world has fundamental human rights which support them in getting the best start in life. Working with children and young people in Woodcraft Folk, we respect and defend their individual rights, and encourage them to participate responsibly and democratically, in all aspects of Woodcraft Folk activity.

Equality

Woodcraft Folk welcomes all children, young people and adults, who wish to become members of the movement, regardless of their age, class, gender, race, sexual orientation or religion. We combat oppression or discrimination in our movement and

One World

Woodcraft Folk will encourage an understanding of the need to work towards a world where we provide for the needs of everyone on the planet now and in the future without destroying the physical environment. We aim to educate our members about issues of environmental and social sustainability and how this relates to their own lifestyles and other people's actions.

Peace

Because of our international outlook and belief that everyone should be free from war and want, we are dedicated to peaceful practices and working towards a world at peace. We associate with the movement for world disarmament and for the transfer of those resources directed to the destruction of life into channels which will be used for the fulfilment of humanity's needs.
